

## Family Project

For our July's Family Project, we are asking two things of you. First, that you create some sort of Firework display with your family. Secondly, we ask that you bring in a picture of anyone you know who has served our country or is still serving our country. We will be displaying them in our front lobby.

The firework may be decorated in any way you would like. Start by making a plan and then gather materials. Be creative with anything you have around the house: seeds, fabric, paint, feathers, crayons, cotton balls, bows, noodles, cereal, etc. Be creative. I hope your family will have fun working together on this project. Please remember that the purpose of these Family Projects is not only to have fun with your family, but to encourage speaking and listening skills. Have Fun!!
